

21.1(455B) Compliance schedule.

21.1(1) New equipment. All new equipment and all new control equipment, as defined herein, installed in this state shall perform in conformance with applicable emission standards specified in chapter 23.

21.1(2) Existing equipment. All existing equipment, as defined herein, shall be operated in conformance with applicable emission standards specified in chapter 23 of these rules or as otherwise specified herein; except that the performance standards specified in 23.1(2) shall not apply to existing equipment.

21.1(3) Emissions inventory. The person responsible for equipment as defined herein shall provide information on fuel use, materials processed, air contaminants emitted, estimated rate of emissions, periods of emissions or other air pollution information to the executive director upon his written request for use in compiling and maintaining an emissions inventory for evaluation of the air pollution situation in the state and its various parts. The information requested shall be submitted on forms supplied by the department. All information in regard to both actual and allowable emissions shall be public records and any publication of such data shall be limited to actual and allowable air contaminant emissions.

21.1(5) Public availability of data. Emission data obtained from owners or operators of stationary sources under the provisions of 21.1(3) will be correlated with applicable emission limitations and other control measures. All such emission data and correlations will be available during normal business hours at the quarters of the department. The executive director may designate one or more additional places where such data and correlations will be available for public inspection.

21.1(6) Maintenance of record. Each owner or operator of any stationary source, as defined herein, shall, upon notification from the executive director, maintain records of the nature and amounts of air contaminant emissions from such source and any other information as may be deemed necessary by the commission to determine whether such source is in compliance with the applicable emission limitations or other control measures.

a. The information recorded shall be summarized and reported monthly to the executive director on forms furnished by the department. The initial reporting period shall commence sixty days from the date the executive director issues notification of the recordkeeping requirements.

567-21.1

b. Information recorded by the owner or operator and copies of the summarizing reports submitted to the executive director shall be retained by the owner or operator for two years after the date on which the pertinent report is submitted.

[illegible]

Description:	This revision created the Iowa Department of Environmental Quality. Also, the sections on "Within Standard MSA's and "Outside Standard MSA's" and "Standard MSA's" of Iowa was deleted, and some of the contents of this section was incorporated into the rule on Emission Reductions (21.3). This revision provided for public availability of emission data and required the source to maintain records.
--------------	---

[illegible]

Description: This revision deletes Iowa's "confidentiality" regulation 21.1(4) and in 21.1(2) revised reference to NSPS. Also recodified rules from IAQC to Department of Environmental Quality.
